

The possibilities for the PSET CLOUD: a review of local and international 4IR developments that can promote and/or limit the PSET CLOUD in South Africa

Prof Saurabh Sinha, PhD (Eng), Pr Eng

1 Mar. 2022

**UNIVERSITY
OF
JOHANNESBURG**

Agenda

- | | |
|-----|--|
| (1) | Industrial Revolutions
▶ Fourth Industrial Revolution |
| (2) | Skills revolution |
| (3) | CLOUD Computing |
| (4) | Concluding remarks |

(1) Industrial Revolutions

Industrial revolutions throughout history

I Steam, water, mechanical production equipment

II Division of labour, electricity, mass production

III Electronics, IT, automated production

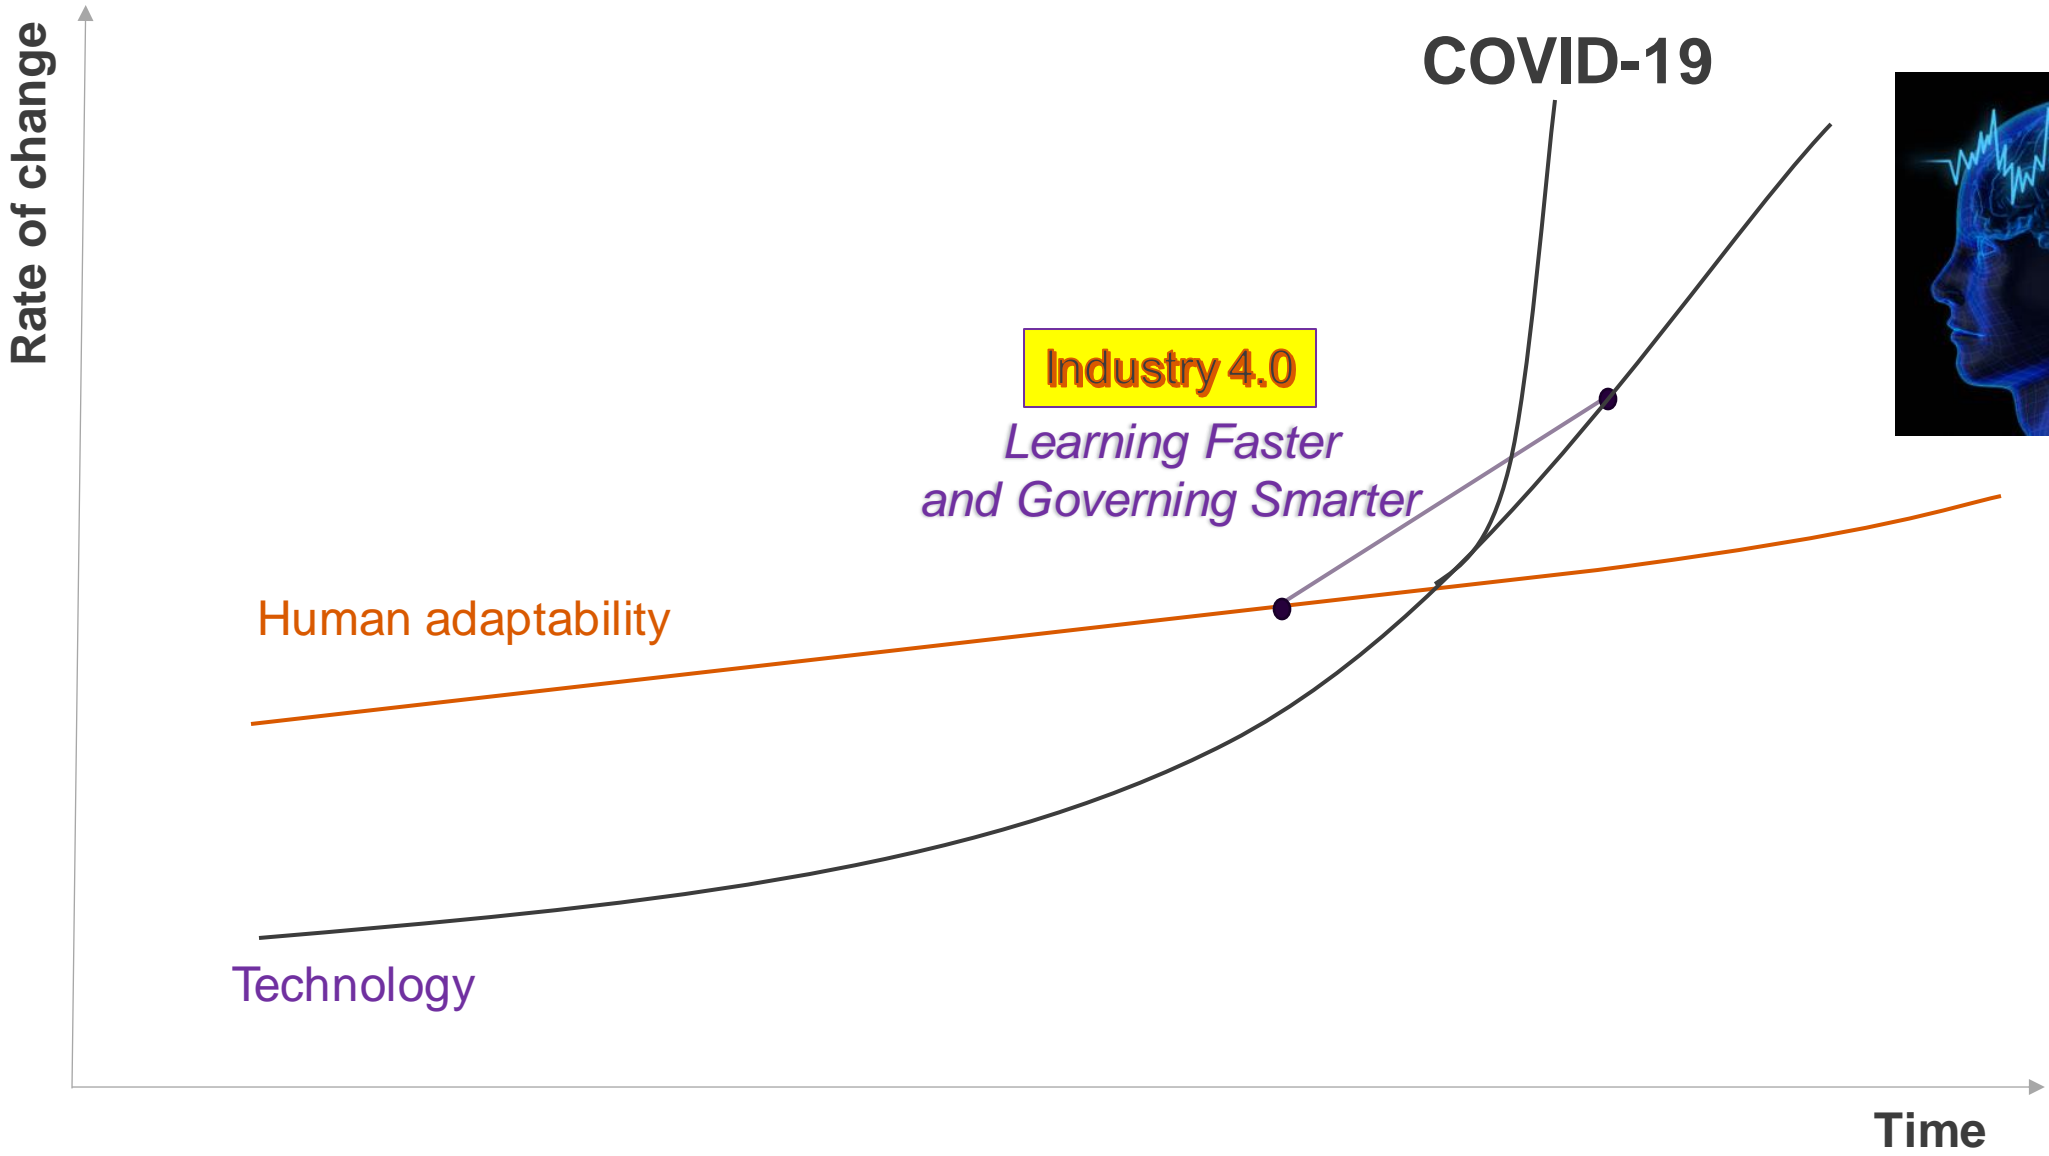

Digital Revolution

IV Cyber-physical systems

Simply: Human-machine “symbiosis”

V Human element

Source:

Acknowledgements: The concept of this slide is textually captured in Friedman's book; the UJ component is superposed to illustrate our catalytic initiative for the Fourth Industrial Revolution (4IR). The second image (the mind) is obtained through a creative commons (CC) license and can therefore be re-distributed. The image displays an EEG waveform – as generated by the human brain. ©

(2) Skills revolution

(2.1) Multiple PSET avenues

(2.2) Traditional avenues – universities, universities of technologies, etc

(2.3) Unconventional and online learning

(2.4) Combination thereof.

(3) CLOUD Computing

(3.1) Deployment: Public, Private and Hybrid

(3.2) Service:

SaaS

Example (current phase): PSET Cloud

IaaS

PaaS

Combination thereof

(3.3) Providers:

AWS, Azure, GCP, Alibaba, IBM

(4) Concluding remarks

(4.1) Cloud of “Clouds” (referring to social media)

(4.2) For the programmers, managing “Scope Creep”

(4.3) For all, skills revolution – Cloud (and Edge) Computing

(4.4) While you’re learning, partner with others.
